---

# Problem Statement

- Students apply to many internships & jobs
- Difficult to track application status
- Deadlines and follow-ups are missed
- Fake or unverified internship offers
- No guidance on required skills

---

# Existing System

## Existing System

- Manual tracking using notes or spreadsheets
- Multiple platforms for jobs, skills & resumes
- No reminders or insights
- No personalized career guidance

## Limitations:

- Time-consuming
- Error-prone
- No clear career visibility

# Proposed Solution – Career Sync

Career Sync is an all-in-one smart platform that helps students:

- Track internship & job applications
- Get deadline reminders
- Analyze skill gaps
- View verified internship opportunities
- Monitor career progress through a dashboard

# Technologies & Architecture

## Technologies Used

### Frontend:

- Wix / Lovable / VibeCode
- HTML, CSS, JavaScript

### Backend & Database:

- Firebase / Supabase / Node.js

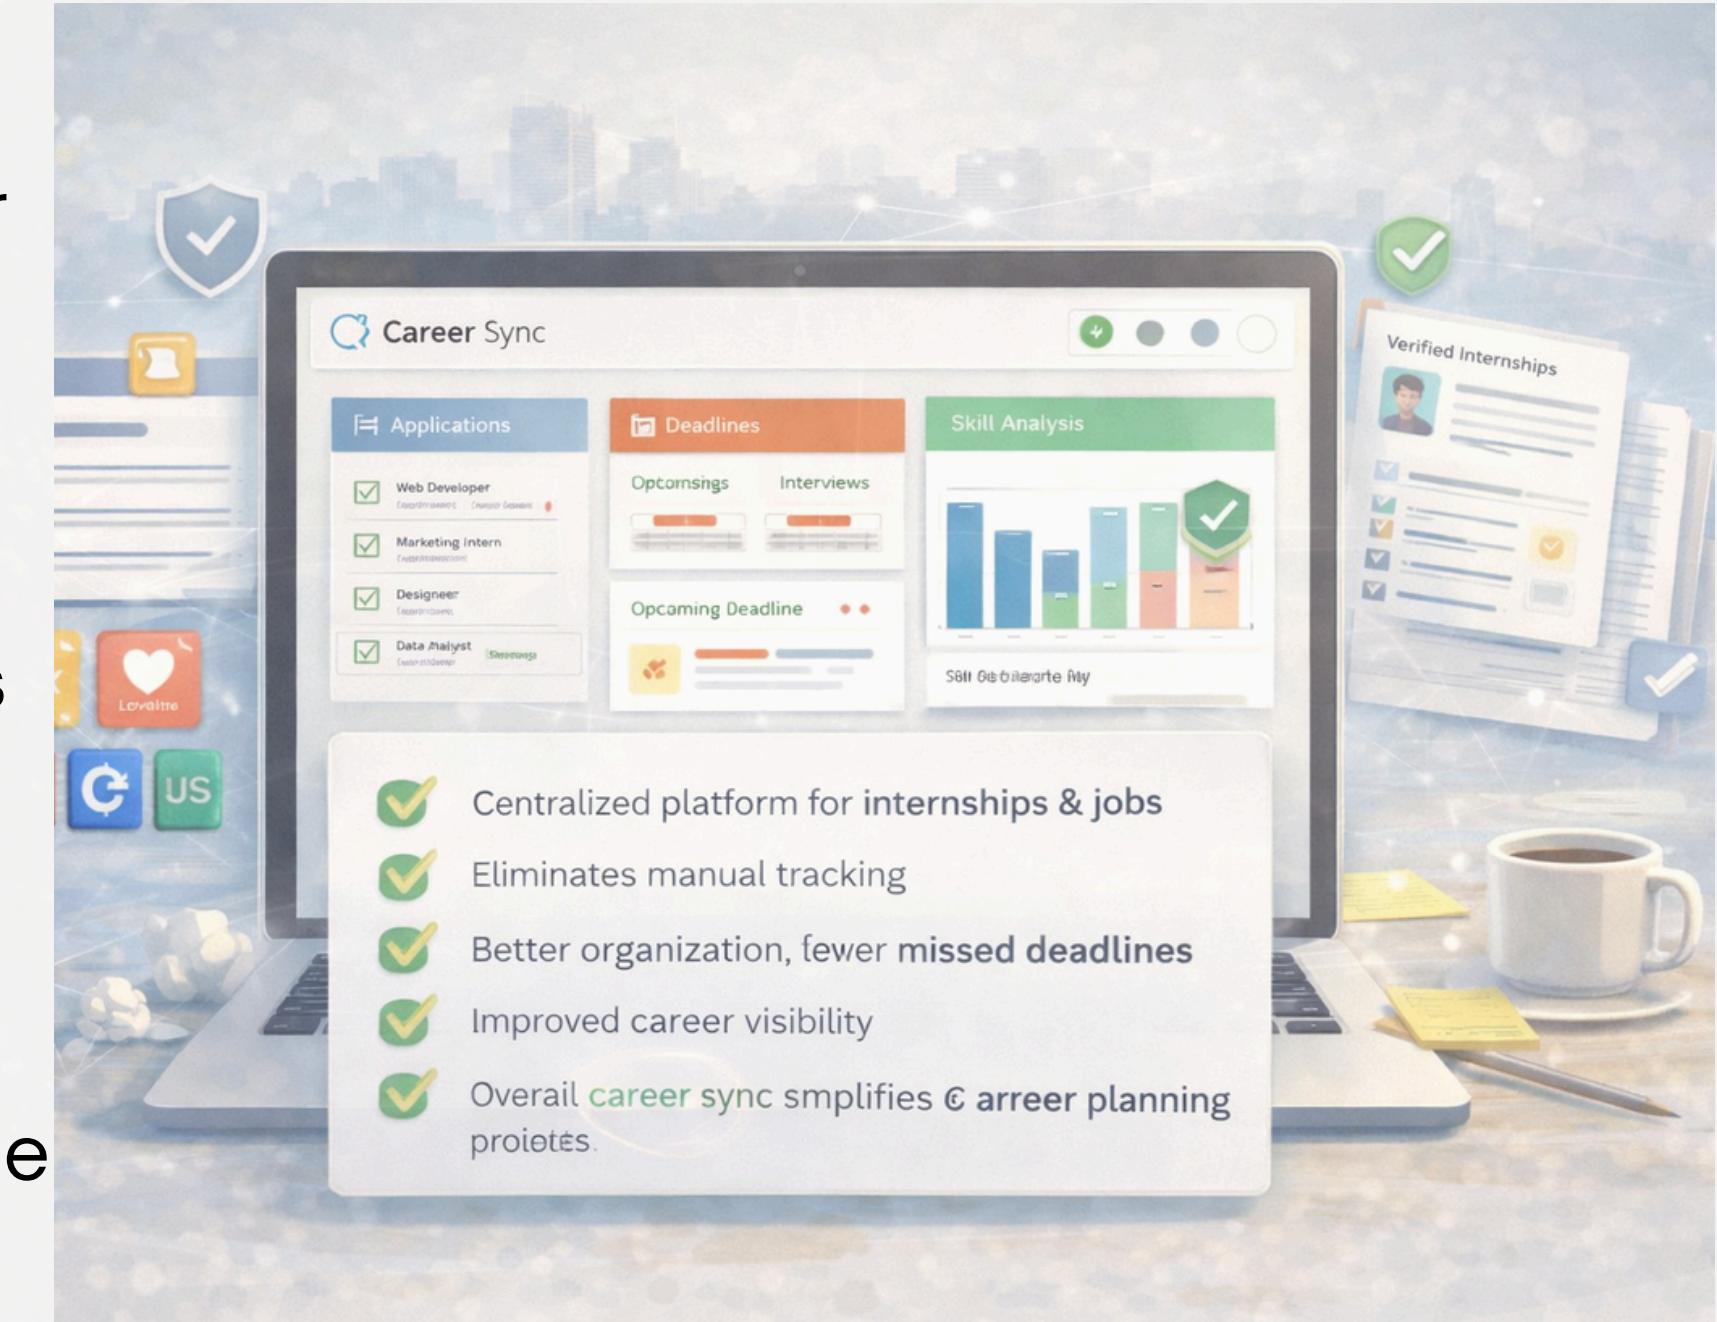

### Flow:

User → Frontend → Backend →  
Database → Dashboard

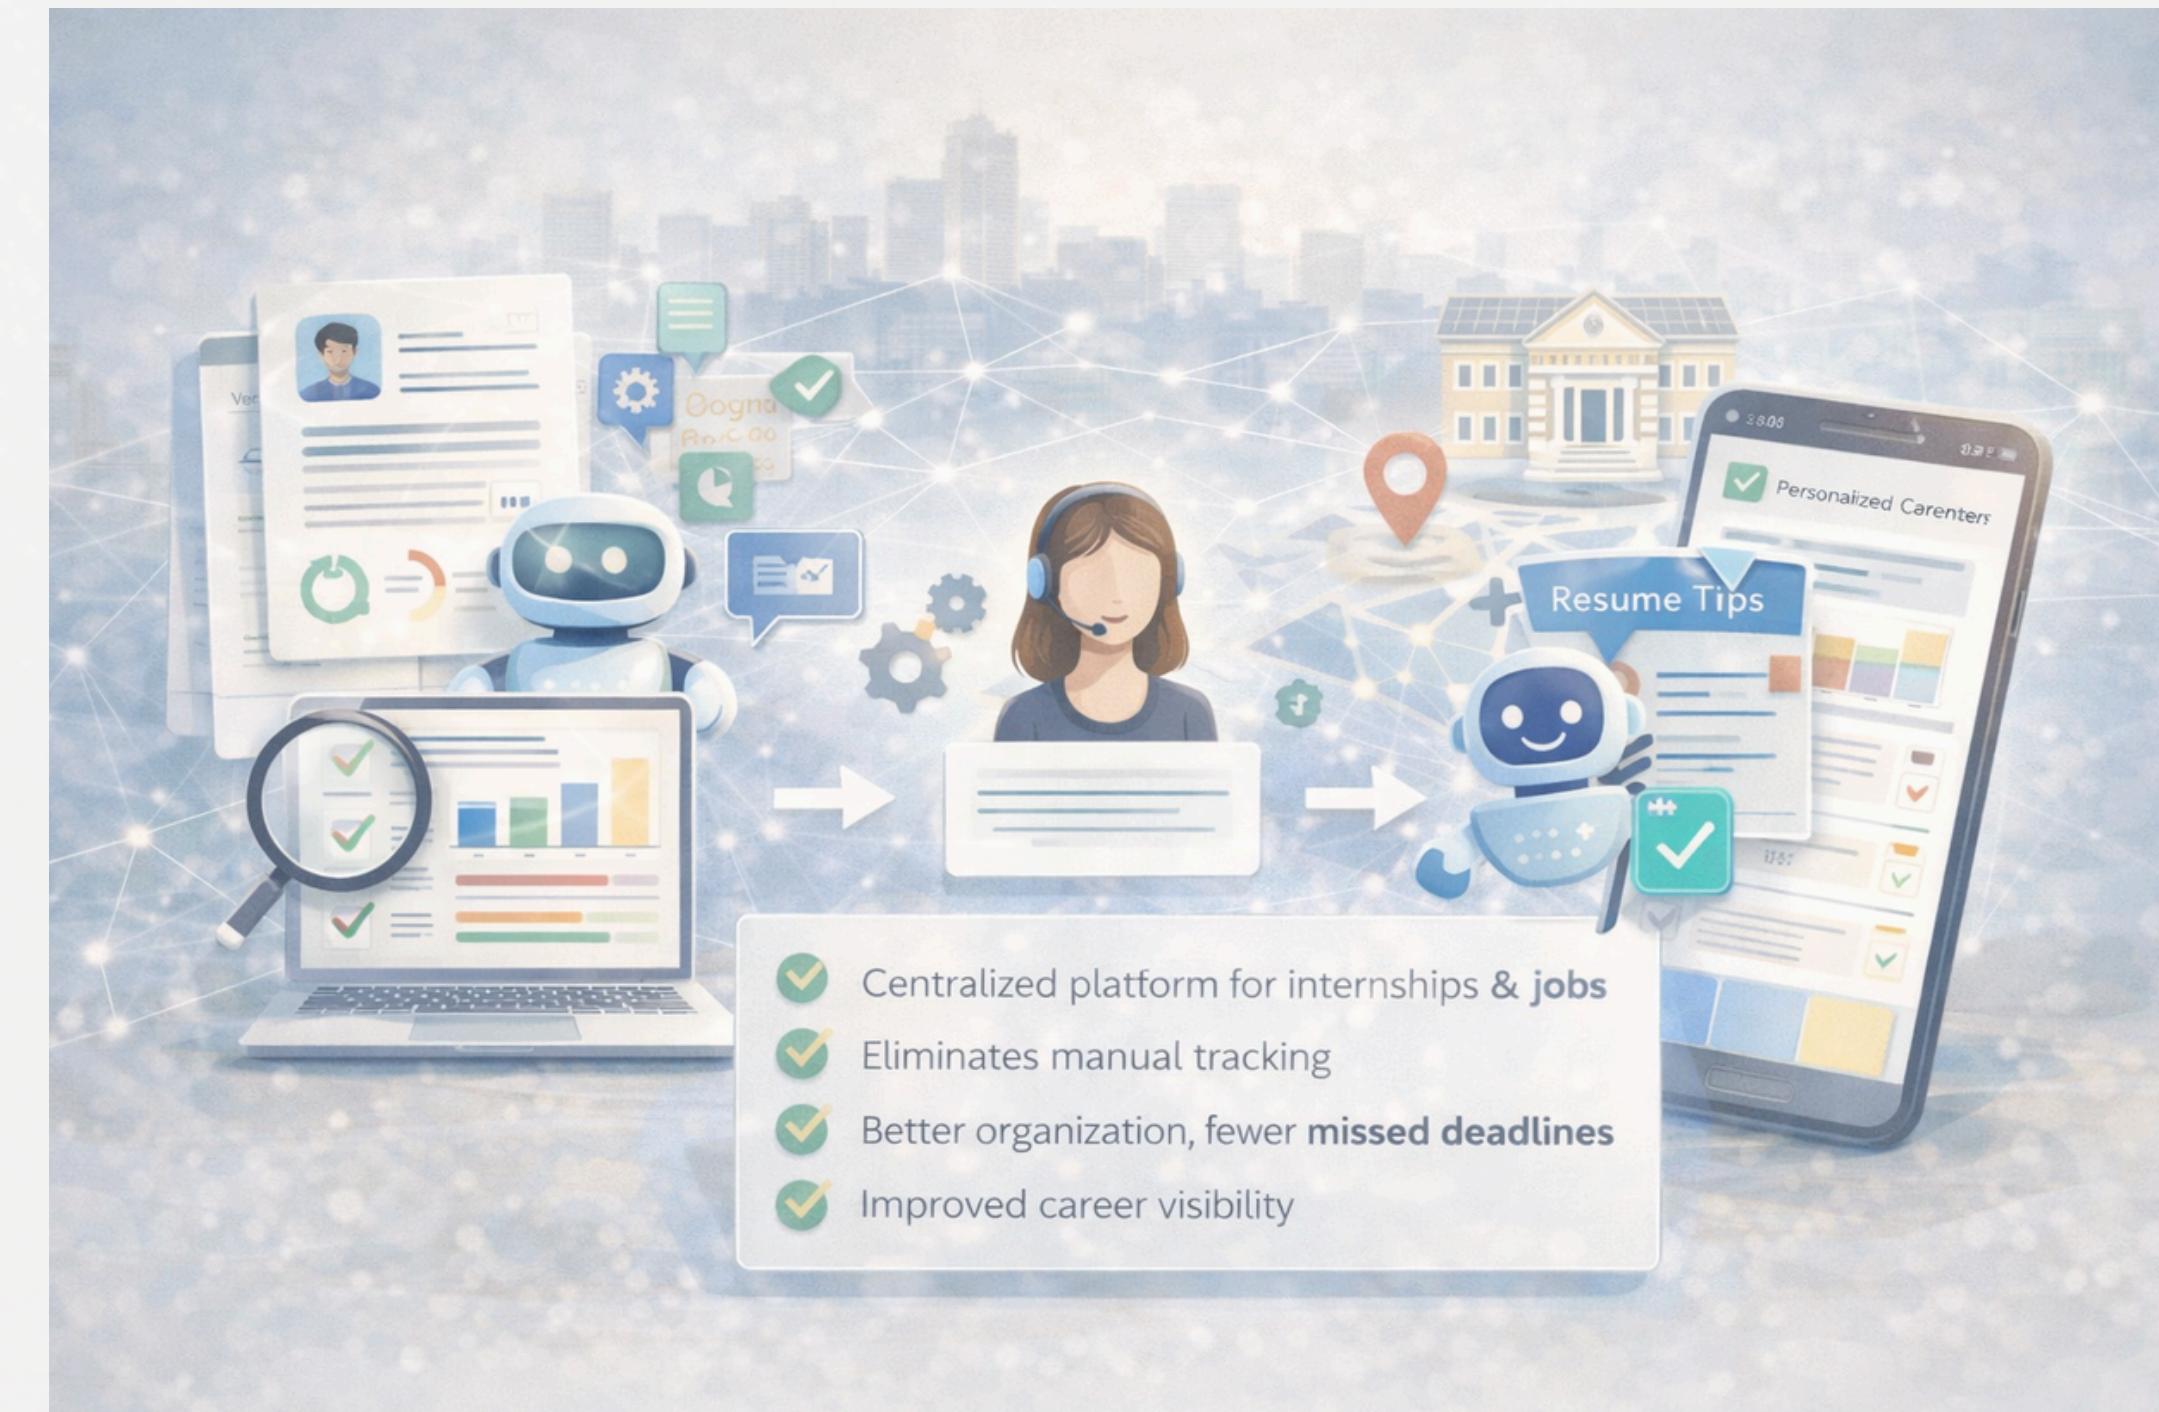

# CONCLUSION

- Career Sync provides a centralized platform for managing internships and job applications
- It eliminates manual tracking using notes or spreadsheets
- The system improves organization and reduces missed deadlines
- Students gain better visibility of their career progress
- Overall, Career Sync simplifies and improves the career planning process

# Future Scope

- AI-based resume analysis and improvement suggestions
- Personalized skill and career recommendations
- Integration with college placement cells
- Chatbot support for career guidance
- Mobile application for easier access
